

discredited former school, the embassy is aiding and abetting these people whom we have told not to fundraise in the names of our daughters.

Accordingly, we wish to therefore state that:

1. Our daughters are there with our full consent, approval and blessing
2. EMCI has our full consent and authority to act as custodians, guardians and next-of-kin to our daughters
3. Our daughters are doing well and are in touch with us regularly or have visited us or been visited by us
4. We have no interest or confidence in any takeover, by the Nigerian government or its embassy or the US government or its embassy or their agents or anyone, of our daughters
5. We approve of the education and character-building programme of EMCI and have full confidence in their leadership.
6. We do not approve of Canyonville Christian Academy, Doug Wead or any of his cohorts or associates, agents or proxies to have anything further to do with our daughters' education in the US.

In conclusion, we would like our daughters, ourselves and our EMCI partners to be allowed progress in peace without undue politicization of their academic opportunities abroad.

Your full cooperation is requested, please.

Sincerely, 

Paul Ali (Uncle & Guardian of Sarah GarbaPapu)
